Deputy Chief of Mission Hugo Llorens for reasons 1.4(b) and 1.4 (d) 1. (C)
Summary: The Ambassador pressed the head of Spain's Export Credit
Insurance Company (CESCE) on 4/21/08 to limit export credit guarantees to
Iran. Separately, EconOff met on 4/21/08 with a Ministry of Foreign
Affairs (MFA) official to discuss Spain's views on Iran sanctions. The
MFA official explained that Spain will continue to implement United
Nations Security Council Resolutions (UNSCRs) on Iran, and that Spain
intends to be in the "main current" of EU sanctions policy on Iran.
```

Description

A cable from the U.S. Embassy in Madrid, dated 4/24/2008 says U.S. pressed Spain to limit export credit guarantees to Iran.

Open Gender

Quants cops surten homes i dones a les notícies?

OpenGenderTracking Project

COMPUTATIONALLY TRACKING GENDER IN NEWS CONTENT

About

The OpenGenderTracking project aims to build software that assists with analyzing the gender balance of news content.

Goals

Our initial goal is to create a standalone service that accepts content and is able to provide metrics about its gender balance. The service will be extendable to allow different sources of content, and have a variety of metrics that will return the gender balance of the content provided.

Who

OpenGenderTracker is a project by [Irene Ros](#) and [Adam Hyland](#) from [Bocoup](#) in collaboration with [Nathan Matias](#) of the [MIT Center for Civic Media](#).

ACLU-New Jersey Police Tape

Grava actuacions policials i les desa en un lloc segur

The image shows the interface of the ACLU New Jersey Police Tape app. At the top is the ACLU logo, which includes the Statue of Liberty and the text "ACLU AMERICAN CIVIL LIBERTIES UNION of NEW JERSEY". Below the logo is a yellow banner with the text "POLICE TAPE". Underneath the banner are three buttons: "Know Your Rights" with a scales of justice icon, "Record Audio" with a microphone icon, and "Record Video" with a video camera icon. At the bottom of the app interface is the website address "www.openwatch.net". The background of the entire image is a light blue gradient with faint, semi-transparent code snippets in white and green.

White House Visitors Log API

Qui passeja pels despatxos de la Casa Blanca?

API METHODS

[GET search](#)

White House Visitors Log API

The Washington Post White House Visitors Log API stores White House visits since January 2009. The Post has more than 2.2 million visits with more being added quarterly.

GET search

Request URL

`http://api.washingtonpost.com/white-house-visitors/search[?visitorFirstName][&visitorLastName][&visiteeFirstName][&visiteeLastName][&startTime][&endTime][&meetingRoom][&limit][&skip]&key=<Your developer key>`

Parameters

visitorFirstName	String	Optional. The visitor's first name. This returns results where the param value is contained in the result. For example 'visitorFirstName=bar' would result in all visitors whose name contains Bar (Barry, Barack...).
visitorLastName	String	Optional. The visitor's last name. This returns results where the param value is contained in the result. For example 'visitorLastName=son' would result in all visitors whose name contains son (Johnson, Sonner, ...).
visiteeFirstName	String	Optional. The first name of the person being visited. This returns results where the param value is contained in the result. For example 'visiteeFirstName=bar' would result in all visitees whose name contains Bar (Barry, Barack, ...).
visiteeLastName	String	Optional. The first name of the person being visited. This returns results where the param value is contained in the result. For example 'visiteeLastName=son' would result in all visitees whose name contains son (Johnson, Sonner, ...).
startTime	Number	Optional. Please use epoch time (milliseconds since January 1, 1970 UTC time). When startTime is set along with endTime, all visits occurring in between the two dates are returned, inclusive. When startTime is set but endTime is not, only visits for the single date indicated are returned.
endTime	Number	Optional. Please use epoch time (milliseconds since January 1, 1970 UTC time). When endTime is set along with startTime, all visits occurring in between the two dates are returned, inclusive. When endTime is set but StartDate is not, only visits for the single date indicated are returned.
meetingRoom	String	Optional. When supplied, results are filtered by visits occurring in the room specified. Results are returned for entries where the param value is contained in the result (E.G. meetingRoom=oval would result in all visits occurring in the Oval Office).

Some weekend work that will (hopefully) enable more Egyptians to be heard

Posted: Monday, January 31, 2011

Like many people we've been glued to the news unfolding in Egypt and thinking of what
the ground. Over the weekend we came up with the idea of a speak-to-tweet service—th
using just a voice connection.

Speak To Tweet 

@speak2tweet

Click the link in each tweet to hear a voice tweet. Call
+902123391447 or +302111982716 or +390662207294 or
+16504194196. Press 1 to tweet, 2 to hear tweets.
